Re: Announcing launch of ***Risk Retention Industry News Digest***

Dear RRR Subscriber:

The *Risk Retention Reporter* is pleased to announce the launch of new quarterly newsletter developed for risk retention group board members and policyholders. The *Risk Retention Industry News Digest* provides stakeholders who are not insurance professionals with a synopsis of key risk retention industry developments that are vital to their role.

The *News Digest* covers legislative and regulatory developments, governance issues, and industry trends. It also includes features on RRG boards' best practices, profiles of RRG CEOs, industry insights and upcoming events.

With the increasing scrutiny by Congress, regulatory agencies, and the new administration on the insurance industry, including RRGs, the *News Digest* enables board members to keep fully informed about significant issues that may affect their RRG. It also helps policyholders understand the benefits provided by their RRG and the value gained from being a member/insured.

The *Risk Retention Industry News Digest*, customized for the individual RRG, is distributed by the RRG under a license agreement. To obtain a sample of issue of the Risk Retention Industry News Digest, please email <cutts@rrr.com> or call (626) 796-4972.
